

FILE Meetings

STAT

Mr. Colby handed me this after the Morning Meeting on 12 October. He was evidently not impressed with the idea of asking outsiders to tell us how to run the Agency or our component. I frankly was surprised and said that we would at least like to have the people in to talk to see whether we believe they indeed have something of value to offer. He agreed to our meeting the [redacted] people but said that any proposal would have to be checked out with him (and presumably the Director) before it could be accepted.
